

airtec¹⁹

October 14 – 16, 2019

MTC Munich • Ingolstädter Str. 45 + 47 | Taunusstr. 45

Airtec19 is approaching | New challenges. New technologies. Exciting times in aerospace. Airtec19 - Enabling Future Mobility - Aerospace meets Automotive - has adapted to the trends in aerospace – autonomous flight, air taxi, urban air mobility - with an enhanced, future-oriented concept: it brings together global aerospace and automotive players and links with this concept the traditional aerospace industry and the new future mobility, as well as new technologies in aerospace and automotive.

Airtec19 Trailer: <https://youtu.be/XZQeF9QbjgQ>

Airtec's well-proven interaction triple remains: International exhibition. B2B meetings. International conference. Airtec19 is again very international, with 130 exhibitors from about 15 countries and B2B-participants, buyers and technology experts, coming from all over the world. see exhibitor and participant list:

<http://airtec.aero/exhibitors/>

Again the forward-thinking conference will be an important part of Airtec19, with exciting keynotes from top speakers, panel discussion and practice-oriented workshops.

This years' conference focuses on visions, concepts and solutions in Future Air Mobility. Engage in inspiring keynotes, panel discussions and exciting practical workshops:

- Panel discussion: Future Air Mobility - From Vision to Reality?
 - Workshops: Specification of Fuel Cell Drive Train | Additive Manufacturing - AM Part Identification, and more
 - Keynotes by:
 - Bernd Sibler - Bavarian State Minister of Science and Arts
 - Dirk Hoke - CEO, Airbus Defence and Space
 - Felix Lee - Managing Director, Ehang
 - Peter Berger, Director of Innovation, EmbraerX
 - Andreas Perotti - Director Marketing & Communications, FACC
 - Bill Holler - Chairman DIN (NL German Institute for Aerospace Standards), Industrio GmbH
 - Dr. Ralf Gaffal - Managing Director, Munich Airport International
 - Emmanuel Jullien, VP Business Development - New Aerial Mobility, Safran
 - Dr. Jürgen Rauleder, Vice President Europe-Africa, Vertical Flight Society (VFS)
 - Olaf Otto, Head of E-Aircraft, Siemens
- and many others.
